

Bachelor of Interior Design (Hons)

(R/581/6/0040) (MQA/FA 4585) 10/2025

Bachelor of Interior Design program aims to produce graduates professionally in the interior design environment and building industry with theoretical, technical and practical knowledge in interior design field. The program will prepare the student in designing research components and the fast demands of the new technologies and changes in the current built environment industry. Student will be train professionally in developing the ability in handling various problem/issues with creative practice along with a

design consideration relating to sustainability, universal design, safety and by laws.

BENEFITS

- ▶ Many graduates work in interior design and architectural practices where commissions may range from residential, retail, and entertainment, to hospitality, corporate office, and public building design.
- ▶ As an interior designer, you may also work in film and television design, set design for theater, furniture design, exhibition design and curating, event planning and design journalism.
- ▶ Design practices are becoming increasingly multidisciplinary, with interior designers, landscape architects, architects, industrial designers, and graphic designers collaborating on large-scale projects.

ENTRY REQUIREMENTS

STPM/A-Level: Minimum 2 credits (Including Mathematics)
 Matriculation/Foundation: Minimum PNGK 2.0 (Including Mathematics)
 Pass in Foundation in Built Environment/CUCST
 UEC: Grade B in 5 subjects (Including Mathematics)
 Diploma/Diploma in Architecture Technology CUCST : Minimum PNGK 2.0
 UEC: Grade B in 5 subjects (Including Mathematics)

For International Students
 IELTS: Minimum 4.0

Duration of study
 3.5 year

Credit Hours
 124

SUBJECTS OFFERED

YEAR 1

- Studio Interior Design 1
- Interior Design Communication & Graphic
- Ergonomics & Human Factors
- Interior Design Construction 1
- Interior Design Principles
- Studio Interior Design 2
- Computer Aided Design 1 (CAD)
- Furniture Design
- Interior Design Building Services 1
- Building By Law
- History of Arts & Architecture
- Materials & Finishes
- Environmental Science

YEAR 2

- Co-Curriculum
- English For Academic Purpose
- Academic Skills
- Studio Interior Design 3
- Working Drawing and Documentation
- Sustainable and Green Design
- Cocurriculum
- English for Employment
- Studio Interior Design 4
- Interior Design Construction 2
- Interior Construction Economics
- Entrepreneurship
- History of Interior Architecture
- Computer Aided Design II (CAD)

YEAR 3

- Tamadun Islam & Tamadun Asia (TITAS) / Bahasa Melayu Komunikasi 2
- Studio Interior Design 5
- Research Method
- Interior Design Building Services II
- Lighting Design
- Hubungan Etnik / Pengajian Malaysia 3
- Studio Interior Design 6
- Topical Studies
- Introduction To Project Management
- Interior Design Professional Practice & Management
- Practical Training (6 months)
