

# Diploma in Islamic Banking

(R/343/4/0124) (MQA/FA 3630) 03/2024

The Diploma in Islamic Banking is aimed mainly at learners and professionals seeking for an extensive understanding of the concepts and operating principles applied to different types of Islamic banking in comparison to conventional banking.

This programme is designed for students who want to gain a strong understanding of Islamic banking. You will also learn about the operations of an Islamic banking institution. The course is taught by seasoned academicians with extensive banking experience, as well as guest speakers from some of Malaysia's leading banks and financial institutions.

## BENEFITS

- ▶ You will be exposed to the Islamic banking model based on a profit-sharing principle, whereby the risk is shared by the bank and the customer.
- ▶ You will learn how the system of financial intermediation contributes to a more equitable distribution of wealth.
